Department, Govt. of Gujarat
under Student Startup
Innovation Policy (SSIP)

ALUMNI TESTIMONIAL Dr. Chandni Parsaniya

“ I, Dr. Chandni Parsaniya, alumna of School of Physiotherapy, highly recommend the Physiotherapy program. The faculty and staff provided a supportive and challenging learning environment that encouraged critical thinking and fostered a sense of community among the students. The curriculum was comprehensive and emphasized evidence-based practice, providing a strong foundation in the theories and practices of physiotherapy. The clinical placement component was invaluable in gaining hands-on experience and developing clinical skills and confidence as a physiotherapist. Since graduating, I have found that my education at the school prepared me well for the challenges and opportunities of the field. I am grateful for the education and experiences I received and would highly recommend the School of Physiotherapy to anyone considering a career in physiotherapy. ”
